5. Goals from last year (8-10 min)

a. Traffic issue: history, PTA involvement, plan moving forward

Discussed barriers. We are in the process getting volunteers, or employees out front of the building. We cannot act as crossing guards. That would need to be the city. We have asked in years past and are unable to get a crossing guard for that location. Signs indicate routes of travel. We have also put up flags for students to go across the road to help slow traffic during school arrival or dismissal.

6. Parent community involvement (5-8 min)

a. PTA fall family events

PTA has asked for a PTA link to be added to the Husky Headlines to help keep parents in the loop. They are in need of volunteers for classroom help, parties, and other events. We are looking to get the background check bus out at an event at Holbrook. We have to have at least 30 people needing background checks in order to secure the bus. They are booked through December but we will keep trying. We discussed best ways to get PTA information to parents. We can use the PTA dsd email account. Tara Nelson and Tara Best will look into getting the password for that account.
